STANDARD DELIVERY

'Standard delivery' is normally 7-28 days depending on when the next shared load run can be made up. We will advise you of the delivery date once the route has been finalised, this is normally around five days in advance.

The standard delivery vehicle is a large rigid lorry fitted with a crane that will offload directly alongside.

If you require a specific delivery date/time or need a different type of vehicle/method of offloading additional charges will apply.

COLLECTION

Collection can be made from the Crawley distribution depot, by prior arrangement, once payment has been cleared.

We regret that we are unable to visit individual sites to assess access/offloading requirements.

Expandarange products are flat pack and require assembly on site by others (assembly service available in some areas at extra cost – contact us for details)

Prices are for Standard delivery as part of a shared load, contact us if you require a dedicated delivery.

These prices exclude delivery and VAT.

Payment required prior to delivery/collection by bank transfer, cheque, Visa or Mastercard.

Our Terms & Conditions apply unless specifically agreed in writing by TP Structures Ltd PRIOR to placing of an order.
