

## Synthesis Commercial 95

Commercial 95 is a wide width heavy duty HDPE shade fabric, available in 16 popular colours. The lock stitch knitted monofilament construction is designed to block out up to 98% of UV rays, whilst allowing heat to escape through. Being very porous, it can span large areas with little or no fall, without the risk of water pooling. Combining great durability with economical construction, it is the ideal choice for exterior shade sails of any size.
