SHELTERS

Vica SL works in partnership with the local government, police authorities and crime prevention units in the development of our range of youth shelters.

Available as portable or fixed, shelters have been proven to reduce the local crime rate. Our steelwork for shelters carries the same heavy duty specification as that of our Multi Use Games Areas (MUGAs).

We also offer a 25 year fair wear and tear warranty and a 5 year fair wear and tear warranty for the paint finish. All shelters can be provided in any standard RAL colour combination of your choosing. We have our own in-house powder-coating facility where we incorporate additional processes ensuring durability of the coating and therefore value for money over time.
