

STAINLESS STEEL SEATS AND BENCHES

LMSSH3

Available Grade 304 - 316

Dimensions shown in mm.
Do not scale from drawing.

Our street furniture adds the perfect finishing touch to any project. Made from high quality stainless steel, our products meet all the necessary regulations and thanks to the versatility of the material, they're maintenance free.

Some products are also available in Grade 316 to help resist corrosion allowing them to withstand the harshest of environments - ideal for coastal projects or when they need extra protection from the elements.

We're proud to be a British manufacture where all our products are design and manufactured in the UK.
