SuperRelay

SUPERRELAY, THE PERFECT ALTERNATIVE TO LOW COST PLCs AND BASIC RELAYS

xLogic SuperRelay is a compact and expandable CPU replacing mini PLCs, multiple timers, relays and counters.

The xLogic SuperRelay perfectly fits in the space between timing relays and low-end PLCs.

Each CPU incorporates not only a real-time clock and calendar, but also provides support for optional expansion I/O modules to enhance control and monitoring applications.

- 4-lines, 10-character per line, backlight display
- Function Block Diagram programming
- Standard MODBUS RTU communication protocol supported
- Expandable up to 31 linked modules reaching fast reacting 514 I/O points
- Optional Ethernet connectivity
- Optional SMS Alarm/Alert
- RS232 and RS485 ports
- FREE programming software

We are currently looking for distributors of this Low Cost powerful PLC.
