ukguttermaintenanceLtd

Reaching New Heights for Service and Safety.

UK Gutter Maintenance are specialists in the cleaning and maintenance of commercial, retail and industrial gutters throughout the country.

Experienced operatives, health and safety officers and allocated project managers, some with over 20 years experience within the industry, are backed up by a dedicated team of administration personnel allowing UK Gutter Maintenance to deliver a range of services to ensure your properties are given the level of attention they require.

The Company has an ever-growing and loyal client list which includes such household names as Carpetright, Topps Tiles, Roadchef, The Open University and Interserve FM.

The scope of services we provide includes:

- Major planned preventative maintenance (ppm) gutter cleaning contracts
- Fast reliable call-outs for national help desks
- Gutter maintenance and repair works
- Gutter waterproofing treatments (up to 15 year guarantee)
- Siphonic system repairs and installations
- Roof and sky light repairs/replacements
- Re-testing of safety wire systems
- Installation of leaf free gutter guards
- Expert, friendly advice and free site surveys

Safety First, Every Time.

All staff are committed to working safely and responsibly and have all undergone comprehensive training and appraisals to ensure that we work in accordance with the HSE Working at Height Regulations (HSG33).

Each project is also subject to risk assessment to ensure that every task is governed by our principles of safe working, with staff always working as teams to minimise risk.

Complex health and safety issues are dealt with individually by our in-house health and safety manager.
