

*Access anytime, anywhere*

# *Your partner in vertical access*

## **The name you can trust**

Alimak Hek is the name you can trust for most climbing solutions based on rack and pinion technology. Our offering comprises construction hoists, work platforms, transport platforms, material hoists, industrial lifts, and a wide range of after sales services.

## **Close and easy to reach**

Access anytime, anywhere is what our products and our organization stand for. With a network of wholly owned sales and service companies at strategic locations on three continents and some 50 representatives worldwide, we are always close and easy to reach.

## **Excellence in product development**

We have taken a good idea and continue to make it better. Our product development is a never-ending process of small and large steps on the way towards perfection. By meeting new needs and solving new problems, we continually keep our products at the forefront.

## **Long-term partnership**

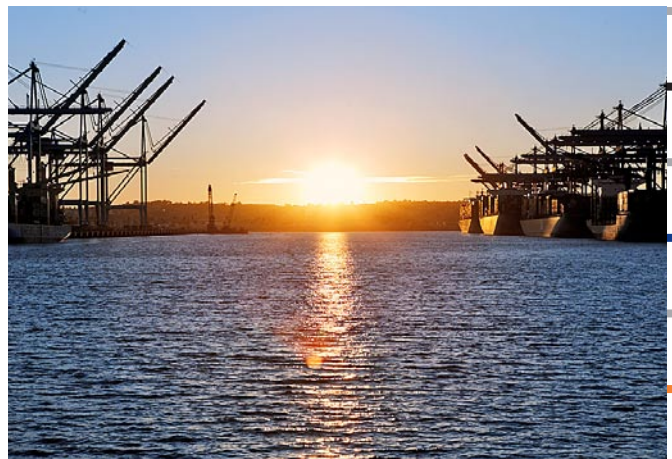

Long-term partnership with the best and most demanding customers in the world has taught us that excellent products must also be backed by a lifetime of experienced advice, hands-on applications know-how, skilled problem solving, and efficient after sales services.

## **Peace of mind**

Safety is paramount when it comes to vertical access, especially at extreme heights and in the toughest work environments. Our products are designed, engineered, manufactured, and tested to the limit to deliver safe and trouble-free operation and ensure ongoing productivity and profitability.

*Access solutions based on the rack and pinion technology are strong, fast, and efficient. They are easy to install in very limited spaces and don't require a shaft or machine room. In addition, rack and pinion technology allows lifts, hoists, and platforms to climb curved or inclined paths, with virtually no height limit.*

*Alimak Hek offers vertical access solutions throughout the world for areas such as construction, cement, oil and gas, on and offshore, port cranes, power, pulp & paper, steel, and many more. All relevant applications can be addressed, contributing to maximum productivity and up time of the process in question.*

*The Alimak Hek Group is the world's leading supplier of mast climbing equipment and added value services for both temporary and permanent installations, providing the most cost efficient, reliable, and flexible vertical access solutions for people and materials in the construction and general industry.*

*The Alimak Hek Group is owned by Triton, an independent European private equity investor, focusing on investing in companies with leading market positions in attractive industry niches. Triton has offices in Sweden, Germany and the UK.*
