## DO YOU USE A LOT OF COFFEE ?

If you are a high capacity coffee outlet and use lots of our coffee beans - whichever one you use - we can offer these on a bulk basis in one of our 10Kg tubs, which are;

## RE-SEALABLE & RE-USABLE

Not only does this save you money but results in less packaging and hence less waste.

The image here shows one of the 10Kg tubs next to a standard 500g coffee bag.

Combine this with a regular supply of our compostable takeaway hot drinks cups and you can proudly promote your growing environmental awareness.

★ **AWARD WINNING**  
★ **SMALL BATCH**  
★ **HAND ROASTED**

We have a wide range of single origin and blends from all parts of the coffee growing world, with award winners, mountain water decaf and small batch...

## HAUSBRANDT - TASTE CHALLENGE

If you love Hausbrandt, we challenge you to take the taste test with our very own House Blend and HH coffee alternatives - blended and roasted as an exact match, but at a price we think you will love...!

# TECHNICAL SERVICES

## Emergency Repairs

If your espresso machine or bean-to-cup machine develops a fault, we can get it back into operation for you - fast. For those jobs that take a little longer we can loan you a machine to keep you suitably refreshed.

## Routine Maintenance

Whether it's a front-end service on your espresso machine, the changing of group seals, a full de-scale (see calcium treatment units below!) or the regular exchange of your calcium treatment unit, we have the tools and skills to ensure a cost effective solution.

## If your water isn't perfect - how can your coffee be?

### Improved COFFEE Taste & Aroma

Water impacts the taste, aroma and appearance of coffee significantly. With a correctly installed BRITA filter, we are able to achieve the perfect blend based upon your unique water requirements.

### Equipment Protection

Scale forms when calcium combines with carbonate and the impact of this on your espresso machine is a disaster leading to machine breakdowns. When we install your filter we carry out a water hardness test to ensure you have the right filter installed and commissioned correctly.

## Essential Hygiene Products
