Trace Elements
ONYX
Zeolites
Seaweed
- **USES** Pre-seeding or turfing of new lawns.
Feeding an existing lawn.

A PROFESSIONAL ORGANIC LAWN FEED, SPECIALLY DESIGNED FOR USE IN PRE-SEEDING OR PRE-TURFING APPLICATIONS.

FEATURES

- Resealable safe storage container.
- Slow nutrient release – provides nutrients for up to 3 months.
- Nitrogen to promote healthy leaf growth.
- Phosphorus, Humates and Trace Elements to keep roots healthy.
- Potassium to aid water absorption.
- Magnesium Oxide aids the production of chlorophyll to encourage a lush, green colour.
- Zeolites for nutrient retention.
- Can be applied to bare soil prior to turfing or seeding, or as a top dressing to recently installed turf.
- Can be applied at any time of year. For best results avoid use during heat waves or drought unless watered well in.

Important - Do not exceed the recommended application rate. This product contains iron and will cause staining to hard surfaces like concrete and paving.
