

# POWERPLAY INSTANT CRICKET SURFACE

The Notts Sport Powerplay Instant Cricket Surface (PICS) opens up incredible opportunities for coaching and recreational matchplay on almost any artificial turf and sprung wooden surfaces.

Made in the UK, the rollout instant pitch can be installed and played on within just five minutes, the unique shockpad helps regulate a realistic ball bounce, spin and seam reaction. The durable NottsGrass Ultra surface offers player comfort with underfoot grip and boasts a long lifespan. The design also features stabilising strips so that the mat lies flat.

The Powerplay Instant Cricket Surface can encourage people of all ages and abilities to discover and enjoy cricket, it is particularly useful in areas with limited space and where traditional cricket pitches are not viable.

With many artificial pitches now surrounded with floodlighting, the game doesn't have to end with bad light anymore but can go on until late in the evening.

Features of the *Powerplay Instant Cricket Surface* include:

- \* A unique shockpad design to help regulate the ball bounce
- \* Built in expansion ports to enable the system to absorb temperature variations
- \* Stabilising strips to ensure the mat lies flat
- \* A suitably porous surface
- \* Durable surface offering a long lifespan, player comfort & underfoot grip
- \* Surface colour to enable the ball to be viewed easily
- \* **The power to play cricket... instantly.**
