**5**  
YEAR GUARANTEE

# Dub'l-lif™

EST 1956

All our products are designed and manufactured to have at least **double the life span** of similar products on the market.

Dub'l-lif is a traditional family business, trading since 1956. Our superior products are handmade using the best quality materials within our own manufacturing facility in the heart of Somerset, England. For over 60 years we have wholesaled our range of quality products which are used by those working in Agriculture, Road Surfacing, Sports Facilities, Emergency Services and Construction – we now proudly bring these to the Equestrian/Small Holding sector.

Our brochure gives an overview of our coloured product range, each item has a long expected life span and strong eco credentials.

- Squeegees and Scrapers to move bedding, solids and liquids at once.
- Broom Fixings extend the lives of broom heads and their handles.

- Ultimate Boot Jack with long handle, scraper, brushes and scraper mats – perfect for areas where muddy boots gather.
- Telescopic Brooms – perfect for where space is limited or when travelling.
- Snow Pusher – to break up ice and compacted snow and simply move the slush away.

We have the flexibility to work with our customers to tailor products to their individual specification. Please get in touch if you have a specific adaptation or requirement you think we can help with, or if you would like to find out more about our products.

*Mark and Tony*

Our red stripe rubber is reversible to double the life!

## Guarantee

**5**  
YEAR GUARANTEE

Our products are guaranteed against manufacturing defects for a period of 5 years. This does not cover the product where fault is due to misuse, abuse, or where the product has been subject to unauthorised modifications or alterations. In the event of a problem with the product within the guarantee period please contact us.

# Curved Squeegees

Reversible  
rubber blade

The original and high quality curved yard scraper. Durable construction, perfect for swift clearing of yards, rubber matting, wash down areas and walkers of a combination of droppings, bedding materials and liquids. The supple rubber blade is at 90 degrees to the surface being cleaned and as pushed holds the material being moved against the back of the blade.

## ALL OUR SQUEEGEES FEATURES & SPECIFICATION

- Zinc plated, mild steel with coloured powder coating
- Welded bracket, ready for standard handle (handles available)
- Wing nuts easily tighten handle into place, without customers needing tools
- Reversible and ultimately replaceable quality Red Stripe rubber squeegee blade - increases the life span of our squeegees

# Straight Squeegees

Reversible  
rubber blade

Ideal for fast and effective movement of solids and bedding materials. Our versatile straight squeegee is used on wash down areas, yards or walkers. The durable rubber is flexible creating friction when being pulled or pushed along, moving mixed substances with minimal effort. Perfect for cleaning into corners.

## FEATURES & SPECIFICATION

- Made with heavy gauge steel, zinc electroplated to increase corrosion resistance
- Solid, easy to use, hand-welded boot scraper
- Two stiff quality large brushes
- Strong central boot jack
- Long handle with comfort grip to increase user stability
- Handmade from quality materials in our Somerset workshop, England

# The Ultimate Boot Jack

## 3 in 1 Boot Cleaner with long handle for user stability – boot scraper, brushes and boot jack

Our robust 3 in 1 boot cleaner is tough, durable and stands firmly when being used. Constructed from zinc electroplated heavy gauge steel, it comes in a choice of six different colours, perfect for any doorway where shoes gather. This multi-functional boot cleaner includes a boot scraper to scrape off mud, two stiff brushes to enable muddy footwear to be cleaned down easily, an integral boot jack with the bonus of a long handle. No more wobbling around on one leg and an end to having a muddy toe!

# Broom Fixings

Broom Heads Available Separately

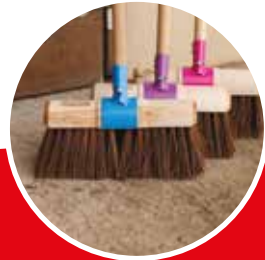

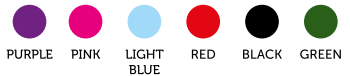

## Broom Clamp

A clamp that fits simply to saddle back broom heads without the need for tools, using two wing nuts. The clamp ensures no more splitting broom heads or complicated re-attaching of handles! Being reversible the broom clamp ensures even wear and longer life of rounded top broom heads whilst increasing the support for broom handles.

### FEATURES & SPECIFICATION

- Made from mild steel
- Zinc plated for corrosion reduction
- Welded bracket ready to be fitted with standard handle (handles available)
- Wing nuts easily tighten clamp and broom handle into place, without the customer needing any tools
- Reversible clamp, increasing broom head life
- A quality product - strong reusable Eco credentials

## Flat Top Broom Holder

Easily fitted and fully reversible, our Flat Top Broom handle holder attaches simply to flat back brooms using two wing nuts through pre-drilled broom head. The broom handle slots in and is tightened using an additional wing nut. The Flat top broom handle holder comes with two elongated slots to allow for a variety of bolt settings from 2 1/4" - 4 3/8".

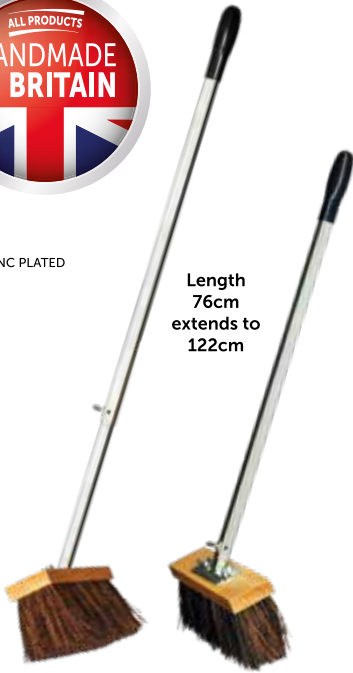

### FEATURES & SPECIFICATION

- For use on all flat top brooms heads (heads available)
- Welded bracket, ready to be fitted with standard handle (handles available)
- Wing nut easily tightens head and handle into place, without the customer needing any tools
- Made from mild steel
- Zinc plated for corrosion reduction
- A quality product which can be reused on different broom heads - strong Eco credentials

ZINC PLATED

Length  
76cm  
extends to  
122cm

## Telescopic Broom

Our telescopic/extendable broom is ideal where storage space is limited, for example car boots and horse trailers. The square tubing of the telescopic broom handle increases rigidity and can be simply extended and secured with a wing nut. Once sweeping is complete the telescopic broom handle can be shortened and stored.

### FEATURES & SPECIFICATION

- Closes to 30" 76cm in length
- Opens to 48" 122cm handle length
- Supplied with or without broom head eg, Bahia/ Bassine/Polypropylene mix and PVC grip handle
- Made from mild steel, square tube increases rigidity and longevity
- Zinc plated for rust reduction

## Snow Pusher

Our Snow Pusher is double sided, fully reversible and virtually indestructible. A super tough rust-proof construction. A metal blade on one side, an exceptionally durable, impact resistant, non-abrasive blade on the other. The Snow Pusher is designed to break up ice and compacted snow, before flipping over and pushing the snow and ice away with the rubber squeegee blade.

Reversible  
rubber blade

## Extras

### Wooden Handles

Grade A Quality Wood.

### Broom Heads

Saddle Back – Stiff Yard Broom Head  
Flat Top – Heavy duty stiff Platform Broom Head

## Full Range of Spares Available

Straight or Curved Squeegee Blades

Full selection of replacement nuts and bolts  
available for all products.
